I, _____ hereby authorize the following intramuscular therapy (check all that apply)

- Beauty Booster
- Superbooster
- Ultimate Energy
- Sunshine Booster
- LipoBlaster
- Active B-12

I understand that these intramuscular injections are a specific formula, containing some or all the following: Vitamins, B-12, Vitamin D, Ascorbic Acid (Vitamin C), Minerals, Amino Acids, B-Vitamins, Enzymes and/or Trace Elements, which are compounded in an FDA approved pharmacy and supplied by a third-party, AquaMedIV. I understand that this procedure is an intramuscular supplementation, not replacement, of these essential nutrients listed above, and recommended but not guaranteed to:

- Maintain and enhance normal bodily functions
- Improve immune function
- Improve antioxidant status/Reduce oxidative damage through detoxification
- Improve fatigue
- Increase energy
- Improve athletic performance
- Improve proper hormone production
- Increase metabolism and assist with weight loss
- Optimize brain function/Increase mental focus
- Improve certain cardiovascular ailments
- Reduce histamine release improving allergy symptoms
- Improve gastrointestinal disorders
- Promote healing from injury/surgery/intense exercise or training
- Improve signs of aging
- Assist with symptom management (headaches, muscle cramps, gastrointestinal discomfort, pain)

This procedure may be considered medically unnecessary. It may or may not mitigate, alleviate, or cure the condition for which it has been prescribed. This therapy has been recommended to you in the belief that it is of potential benefit in these circumstances and its use will quite probably improve the condition for which you are under treatment and in your overall health.

Please initial next to each:

I understand that:

_____ The procedure involves inserting a needle into muscle and injecting the elected therapy by a medical professional acting within their active state-regulated license/guidelines under the direct supervision of a physician.

_____ Benefits of intramuscular therapy include but not limited to:

- ❖ All of the above listed benefits related to my specific treatment.
- ❖ Absorption of these supplements is optimized as they bypass your gastrointestinal system when compared to oral supplementation, allowing for higher doses to be absorbed due to the large blood supply to your muscles.
- ❖ Decrease gastrointestinal discomfort associated with orally ingesting high doses of supplements.
- ❖ Increased safety as most these supplements are water-soluble, meaning whatever your body does not utilize is excreted by your kidneys.
- ❖ Quick, simple and easily accessible.

_____ Alternatives to intramuscular injection therapy are oral vitamins, capsules, liquid drinks, lotions, topical creams, mouth sprays, dietary and lifestyle changes.

_____ There are risks and side effects, although uncommon, to receiving intramuscular injection therapy even when administered properly. While most side effects are extremely rare, there are some that may be experienced more commonly. This can vary person to person due to current health and history, some of these side effects can include but are not limited to:

- Discomfort, numbness, burning/stinging sensation, and/or pain at the site of injection
- Sense or feeling of being swollen over the entire body (bloating)
- Changes in appearance of skin and tissue at or around the insertion site (bruising)
- Inflammation/redness
- Misplacement of the needle during insertion
- Bleeding at the insertion site
- Scarring/injury at the insertion site, including but not limited to vein, nerve injury and tissue necrosis
- Gastrointestinal upset: nausea, vomiting, diarrhea, constipation, indigestions, heartburn
- Metabolic disturbances
- Headache
- Allergic reactions (itching, hives, rash, swelling, difficulty breathing, wheezing, anaphylaxis)
- Muscle spasms, weakness, fatigue, dizziness
- Infection, chills, fever
- Cardiovascular disturbances: rapid heart rate, palpitations, chest pain, flushed face, vagal response
- Cardiac arrest and death

_____ I assume responsibility to notify and/or seek immediate medical attention if any of the above side effects occur that are severe or are troublesome for medical evaluation.

_____ I have, to the best of knowledge in written form, notified my medical provider(s) of known allergies, current medications/supplements, all past and current medical conditions/diseases/disorders, as well as any other pertinent personal/health/social/lifestyle information in order to reduce the risk of complications.
